Since Nelson Mandela and the communist African National Congress (ANC) took over South Africa, **more than 70,000 whites have been murdered** and untold numbers have been robbed, raped and tortured.

But you will not hear about this in the Western media, which fawns over the black terrorists who now run the once-prosperous country.

Claudia Bryan is a South African activist living in London. Her grandmother owned a bakery in South Africa. One day six blacks entered the bakery and gang-raped her. They then tried to shoot her. The gun jammed. In anger they gang raped her again and the 70-something woman died. Robbery was not the motive.

One of the **South African Family Relief Project** volunteers, who drove this writer around Durban during a recent fact-finding visit to South Africa, related the experience of a co-worker. This man and his adult son were working on their boat at their home in an upscale area when two blacks came up the driveway and demanded the keys to the son's car. When the father refused, the blacks shot him dead and fled.

Joulene Trichardt, my Johannesburg guide's daughter-in-law, was one of the managers at a nightclub called Truth several years ago. The night club was open once a week for parties and dances. One night, four armed blacks burst in, firing handguns, and attacked the staff. They herded the managers and the disc jockey into an office. They beat one manager with a pistol and kicked Ms. Trichardt repeatedly when she disobeyed their orders to keep her eyes down and not to look. The bandits made off with the night's proceeds—400,000 rand (roughly \$40,000)—as well as the staff's cellphones. They were never caught.

Every white person I met feared for his physical safety. Crime—murder, robbery and rape—is rampant. South Africa has the highest rape rate in the world and the second highest murder rate, making the country more dangerous than most parts of Iraq.

Most victims and perpetrators are black. Rapes are rampant in black schools, and parents often accept a small sum of money as financial compensation for their raped daughter rather than going to the corrupt or incompetent police.

The website “**GenocideWatch.com**” observes: “About 50 people on average are murdered in South Africa per day, of which at least 20 of them are whites (95% black-on-white murder rate). Please take into consideration that white people make up only 9% (4,500,000) of the demographics in South Africa, and therefore the white murder rate in South Africa is quite significant.”

For a bribe, police case files can be made to disappear and the case never comes to court. Traffic stops are often an excuse for a bribe. A hundred rand note (\$10), my hosts told me, would usually make a traffic stop go away.

Worse, police are sometimes the perpetrators of carjackings and robberies.

One incident—the **attempted kidnapping of a rich Chinese couple** in an upper class area of Johannesburg—was **captured on a cellphone** and seemed to be perpetrated by police in the guise of stopping to question the couple. The video has gone viral on the Internet.

Over 70,000 whites have been murdered in South Africa since power was handed to the ANC. Over 5,000 farmers have been murdered. Many of these killings involve hideous torture. An old terrorist chant of the ANC is: “**Shoot the farmer! Kill the Boer!**” This song has been sung in recent times even by President Jacob Zuma.

The communist ideology of the ANC calls for the eventual seizure of many farms. So traumatized and beleaguered are South Africa’s farmers that farm production has slumped, and South Africa is now a food-importing country.

What is going on in South Africa is a slow genocide of the white population. The mounting homicidal violence against whites, the denial of access to jobs for whites and the erasing of their history and culture mean genocide on the installment plan. Could America be next?
